

Buccaneer V3 Staking

Go Live Time:

3:00 AM UTC (GMT) on **September 27th, 2024**

Buccaneer V3 (BUCC), the first privacy token on Ethereum, is launching its Liquidity Staking. A total of **995,000 BUCC tokens** (with a 5,000 token fee to GYSR), or **10% of the total supply**, will be distributed over the next **three months**. The staking begins on **September 27th, 2024 at 3:00 AM UTC** and will distribute an equal amount of **11,111 tokens per day**. The staking rewards are proportional to the amount you contribute. If you're the only staker, even with a very small amount, you will receive the full 11,111 tokens daily. Staking will end exactly 90 days later, on **December 26th, 2024**, at the same time.

Example Scenarios:

- **You stake 1 ETH** as the only staker
→ You receive 11,111 BV3 tokens per day
- **You stake 1 ETH, and 9 others stake a total of 9 ETH**
→ You receive 1,111 BV3 tokens per day
- **You stake 1 ETH, and 100 others stake a total of 100 ETH**
→ You receive 111.11 BV3 tokens per day

Instructions for Staking:

1. **Buy BV3 Tokens**
You can purchase BV3 from the only available pool on Uniswap, or receive them via airdrop from previous versions.
